EXPERIENCES & HIGHLIGHTS

Rogers Centre has just undergone a \$300 Million renovation, the largest renovation in its history. Some fast facts: 2.2 million pounds of materials have been recycled to date; a 200-tonne crane was used for heavy lifting and an average construction crew of 110 workers were onsite six days a week.

Perfectly carved during the ice age more than 12,000 years ago, the geographical wonder known as Niagara Falls is a combination of power, strength, and beauty that only nature can create.
